

Fact Extension Game

Materials:

- ✓ Deck of cards with face cards out (jokers in for zero if you choose)
OR use 4 sets of number cards 0-9
- ✓ 1 die
- ✓ 1 calculator
- ✓ 1 sheet of paper per player

Players: 2

To Play:

1. Shuffle the cards. Place the deck face down on the table.
2. Each player draws 2 cards and makes the largest 2 digit number possible.
3. Players take turns rolling the die and making another 2 digit number using the die number in the tens place and a zero in the ones place. (i.e. roll a 6 and it becomes 60)
4. Each player adds his or her 2 numbers together mentally and records the sum on paper.
5. After 4 rounds, the players use calculators to find the grand total for the four sums.
6. The higher total WINS!
