

## Tric-Trac

- 2 dice
- 20 pennies
- 1 tric-trac board for each player

### **To Play:**

Cover the empty circles on your game board with pennies.

Take turns. When it is your turn:

- ✓ Roll the dice and find the sum.
  - ✓ Move one of your pennies and cover your sum on your game mat
- OR**
- ✓ Move 2 or more of your pennies to cover any numbers that can be added together to equal your sum.

Play continues until no more numbers can be covered on your game board. Your partner may continue playing, even after you are finished.

The game is over when each player has run out of options to cover any more numbers on his or her game board.

Now, players must find the sum of the uncovered numbers. The lower sum WINS!
